Notes to the Condensed Consolidated Interim Financial Statements (unaudited - expressed in Canadian dollars)
For the Three Months ended June 30, 2014 and June 30, 2013

1. CORPORATE INFORMATION

The Company is engaged principally in the acquisition, exploration and development of mineral properties. The recovery of the Company's investment in mineral properties and attainment of profitable operations is principally dependent upon financing being arranged by the Company to continue operations, explore and develop the mineral properties and the discovery, development and sale of ore reserves.

The Company was incorporated under the Business Corporations Act of British Columbia by Certificate of Incorporation dated November 29, 1965. The Company is listed on the TSX Venture Exchange ("TSX-V"), having the symbol GRV-V, as a Tier 2 mining issuer.

The address of the Company's corporate office and principal place of business is Suite 888 - 700 West Georgia Street, Vancouver, British Columbia, V7Y 1G5.

2. BASIS OF PREPARATION

(a) Statement of Compliance

The condensed unaudited consolidated interim financial statements of the Company for the three months ending June 30, 2014 have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed consolidated interim financial statements were authorized for issue by the Board of Directors on August 21, 2014.

(b) Basis of Presentation and Measurement

These unaudited condensed consolidated interim financial statements have been prepared on a historical cost basis and include the accounts of the Company and its wholly-owned subsidiary, Ootsa Ventures Ltd., (formerly named Ootsa Resources Ltd.). All material intercompany accounts and transactions have been eliminated.

The unaudited condensed consolidated interim financial statements are presented in Canadian dollars, which is also the Company's and its subsidiary's functional currency.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

Notes to the Condensed Consolidated Interim Financial Statements (unaudited - expressed in Canadian dollars)
For the Three Months ended June 30, 2014 and June 30, 2013

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

There have been no material revisions to the accounting policies reported in the Company's audited Consolidated Financial Statements for the Year Ended March 31, 2014.

(a) Going Concern of Operations

These unaudited condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations over the next year.

At June 30, 2014 the Company had not yet achieved profitable operations, had accumulated losses of \$15,091,025 since inception, had working capital of \$2,826,725 and expects to incur further losses in the development of its business however, the Company has sufficient cash resources to meet its obligations for at least twelve months from the date of approval of these financial statements. As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

(b) New standards, interpretations and amendments

The following new standards, interpretations and amendments, which have not been applied in these unaudited condensed consolidated interim financial statements; will or may have an effect on the Company's future financial statements.

• IFRS 9 Financial Instruments

IFRS 9 Financial Instruments is part of the IASB's wider project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset. The standard is effective for annual periods beginning on or after February 1, 2015. The Company is in the process of evaluating the impact of the new standard.

Notes to the Condensed Consolidated Interim Financial Statements (unaudited - expressed in Canadian dollars)
For the Three Months ended June 30, 2014 and June 30, 2013

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

(c) New standards, interpretations and amendments (continued)

• IAS 24 Related Party Disclosures

The amendments to IAS 24 clarify that a management entity, or any member of a group of which it is a part, that provides key management services to a reporting entity, or its parent, is a related party of the reporting entity. The amendments also require an entity to disclose amounts incurred for key management personnel services provided by a separate management entity. This replaces the more detailed disclosure by category required for other key management personnel compensation. The amendments will only affect disclosure and are effective for annual periods beginning on or after January 1, 2014. The Company is currently evaluating the impact the final standard is expected to have on its consolidated financial statements.

IFRIC 21 Levies

The IASB issued IFRIC 21 – Levies ("IFRIC 21"), an interpretation of IAS 37 – Provisions, Contingent Liabilities and Contingent Assets ("IAS 37"), on the accounting for levies imposed by governments. IAS 37 sets out criteria for the recognition of a liability, one of which is the requirement for the entity to have a present obligation as a result of a past event ("Obligating Event"). IFRIC 21 clarifies that the Obligating Event that gives rise to a liability to pay a levy is the activity described in the relevant legislation that triggers the payment of the levy. IFRIC 21 is effective for annual periods commencing on or after January 1, 2014. The Company is currently evaluating the impact the final standard is expected to have on its consolidated financial statements. Amendment to IAS 1, Presentation of Financial Statements

The amendments to IAS 1 revised the presentation of other comprehensive income (OCI). Separate subtotals are required for items which may subsequently be recycled through profit or loss and items that will not be recycled through profit or loss. The Company has updated the presentation of OCI on the face of the Statement of Comprehensive Income.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

There have been no material revisions to the nature of judgments and amount of changes in estimates of amounts reported in the Company's unaudited Condensed Consolidated Interim Financial Statements for the three months ended June 30, 2014.

Notes to the Condensed Consolidated Interim Financial Statements (unaudited - expressed in Canadian dollars)
For the Three Months ended June 30, 2014 and June 30, 2013

5. RECLAMATION BONDS

Included in Mineral Exploration and Evaluation Costs as at June 30, 2014, is the Company's aggregate reclamation bonds posted with the Mining and Minerals Division of the British Columbia Government in the amount of \$162,400 (March 31, 2014 - \$162,400).

The remaining bonds cover the future site restoration costs with respect to the Seel and Ox Lake Claims, collectively known as the Oosta Property. All or part of the \$162,400 can be recovered subject to the inspection of the sites and assessment of the restoration costs by the Mining and Minerals Division of the British Columbia Government.

The bonds have not been discounted from their future value because the Company estimates the bonds may be settled within 2 years and the discounting cost being considered immaterial. The Company believes that the amount of the bonds includes sufficient risk premium.

On June 6, 2013 and on January 30, 2014 the Company increased its aggregate reclamation bonds with respect to the Ootsa Property posted with the Mining and Minerals Division of the British Columbia Government in the amount of \$50,000 and \$15,000 resulting in \$162,400 being the updated aggregate total of posted reclamation bonds. Recovery of the posted bonds remains subject to the inspection of the sites and assessment of the restoration costs by the Mining and Minerals Division of the British Columbia Government.

6. MINERAL PROPERTIES

Ootsa Property

As at June 30, 2014, the Company owned a 100% interest in the Ootsa Property, located in central British Columbia, comprised of mineral claims totalling 68,685 hectares. Of these 102 mineral claims, 14 claims totalling 575 hectares, known as the Ox claims, are subject to a 2% NSR. The purchase agreement with the vendor, Silver Standard Resources Inc., ("Silver") entitles the Company to purchase 50% of the 2% NSR from Silver at any time by the payment to Silver of \$500,000. The Company may purchase the remaining 1% NSR at any time by payment to Silver of an additional \$1,000,000.

The 2 Swing claims were purchased in March 2014 for 25,000 common shares of the Company at market value of \$0.91 (Canadian) per common share. The purchase agreement with the vendor entitles the Company to purchase 50% of the 2% NSR from the vendor at any time by the payment to the vendor of \$500,000 or the Company may purchase the entire 2% NSR at any time by payment to the vendor of \$1,000,000.

There are 4 other claims totalling 2,600 hectares, known as the Seel claims, which are subject to a 1% NSR. The Company is entitled at any time to purchase 50% of this 1% NSR for \$1,000,000. Under the terms of the purchase agreement, the Company retained a 2% NSR on the Properties and New Gold has committed to spend Cdn. \$1,500,000 ("the Work Commitment Amount") on exploration expenditures on the Properties as follows:

- a) A minimum of \$500,000 during the balance of 2012, (completed) and
- b) A minimum of an additional \$500,000 during calendar year 2013,(completed) and

British Columbia Mineral Tax Credits ("BCMETC")

Certain qualified exploration costs incurred by the Company entitles it for refundable tax credits as part of an exploration incentive plan offered by the Province of British Columbia. During the year ended March 31, 2014 the Canada Revenue Agency completed audits of the Company's BCMETC claims for the three years ended March 31, 2013. 9. BRIDGE LOAN

During the year ended March 31, 2014, the Company incurred exploration expenditures in British Columbia on the Ootsa Property under provisions of the British Columbia Mineral Tax Credit legislation ("BCMETC") entitling the Company to a tax credit refund of 30% of qualifying expenditures. Subject to an anticipated audit by Canada Revenue Agency of the qualified costs, a refund in excess of \$1,700,000 was estimated by the Company and the refund for the full amount of \$1,849,559 was received on July 29, 2014.

To access a portion of the estimated refund for the use on the 2014 summer Ootsa Project exploration program, the Company entered into a \$1,000,000 bridge loan agreement on June 16, 2014 whereby the lender advanced to the Company the loan amount ("Loan"), bearing interest at 12% per annum to be accrued and compounded quarterly. The Loan and accrued interest will be secured by a first and floating charge on the BCMETC refund total. Repayment of the Loan's principal amount and payment of the accrued interest thereon are both due on the earlier of June 16, 2015 or within three days of the Company's receipt of the BCMETC refund ("Maturity Date") or to an extension to the Maturity Date as may be agreed to by the lender.

Accrued interest on the Bridge Loan for the three months ended June 30, 2014 is \$4,602.

On June 16, 2014, the date of the Loan advance, the Company issued 500,000 common share purchase warrants ("Warrants") entitling the lender to purchase one common share at any time on or before the Maturity Date at an exercise price per share equal to \$0.80.
