1. CORPORATE INFORMATION

Gold Reach Resources Ltd. (the "Company") is engaged principally in the acquisition, exploration and development of mineral properties. The recovery of the Company's investment in mineral properties and attainment of profitable operations is principally dependent upon financing being arranged by the Company to continue operations, explore and develop the mineral properties and the discovery, development and sale of ore reserves.

The Company was incorporated under the Business Corporations Act of British Columbia by Certificate of Incorporation dated November 29, 1965. The Company is listed on the TSX Venture Exchange ("TSX-V"), having the symbol GRV-V, as a Tier 2 mining issuer.

The address of the Company's corporate office and principal place of business is Suite 888 - 700 West Georgia Street, Vancouver, British Columbia, V7Y 1G5.

2. BASIS OF PREPARATION

(a) Statement of Compliance

These unaudited condensed consolidated interim financial statements of the Company for the six months ended September 30, 2013 have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"). These unaudited condensed consolidated interim financial statements were authorized for issue by the Board of Directors on November 27, 2013.

(b) Basis of Presentation and Measurement

These consolidated financial statements have been prepared on a historical cost basis and include the accounts of the Company and its wholly-owned subsidiary, Ootsa Ventures Ltd., (formerly named Ootsa Resources Ltd.). All material intercompany accounts and transactions have been eliminated.

The consolidated financial statements are presented in Canadian dollars, which is also the Company's and its subsidiary's functional currency.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

2. BASIS OF PREPARATION (continued)

(c) Going Concern of Operations

These unaudited condensed consolidated interim financial statements have been prepared on a going concern basis, which assumes that the Company will be able to meet its obligations and continue its operations over the next year.

At September 30, 2013 the Company had not yet achieved profitable operations, had accumulated losses of \$13,971,790 since inception, had working capital of \$303,642 and expects to incur further losses in the development of its business. The Company does not have sufficient cash resources to meet its obligations for at least twelve months from the date of approval of these financial statements. As the Company is in the exploration stage, the recoverability of the costs incurred to date on exploration properties is dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain the necessary financing to complete the exploration and development of its properties and upon future profitable production or proceeds from the disposition of the properties and deferred exploration expenditures. The Company will periodically have to raise funds to continue operations and, although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

There have been no material revisions to the accounting policies reported in the Company's audited Consolidated Financial Statements for the Year Ended March 31, 2013.

Certain pronouncements were issued by the IASB or the IFRS Interpretations Committee that are mandatory for accounting years beginning after January 1, 2012 or later years.

a) New standards, interpretations and amendments effective from 1 January 2012

None of the new standards, interpretations and amendments, effective for the first time from January 1, 2012 have had a material effect on the financial statements.

b) New standards, interpretations and amendments not yet effective

The following new standards, interpretations and amendments, which have not been applied in these financial statements, will or may have an effect on the Company's future financial statements:

- IFRS 9 Financial Instruments

IFRS 9 Financial Instruments is part of the IASB's wider project to replace IAS 39 Financial Instruments: Recognition and Measurement. IFRS 9 retains but simplifies the mixed measurement model and establishes two primary measurement categories for financial assets: amortized cost and fair value. The basis of classification depends on the entity's business model and the contractual cash flow characteristics of the financial asset.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

b) New standards, interpretations and amendments not yet effective (continued)

The standard is effective for annual periods beginning on or after January 1, 2015. The Company is in the process of evaluating the impact of the new standard on the accounting for the available-for-sale investment.

- IFRS 10 Consolidated Financial Statements

IFRS 10 builds on existing principles by identifying the concept of control as the determining factor in whether an entity should be included within the consolidated financial statements of the parent company. The standard provides additional guidance to assist in the determination of control where this is difficult to assess. The Company adopted the standard for the accounting period beginning on April 1, 2013.

- IFRS 11 Joint Arrangements

IFRS 11 describes the accounting for arrangements in which there is joint control; proportionate consolidation is not permitted for joint ventures (as newly defined). IFRS 11 replaces IAS 31 Interests in Joint Ventures and SIC 13 Jointly Controlled Entities — Non-Monetary Contributions by Venturers. The Company adopted the standard for the accounting period beginning on April 1, 2013.

- IFRS 12 Disclosures of Interests in Other Entities

IFRS 12 includes the disclosure requirements for all forms of interests in other entities, including joint arrangements, associates, special purpose vehicles and other off balance sheet vehicles. The Company adopted the standard for the accounting period beginning on April 1, 2013.

- IFRS 13 Fair Value Measurement

IFRS 13 aims to improve consistency and reduce complexity by providing a precise definition of fair value and a single source of fair value measurement and disclosure requirements for use across IFRSs. The requirements do not extend the use of fair value accounting but provide guidance on how it should be applied where its use is already required or permitted by other standards within IFRSs. The Company adopted the standard for the accounting period beginning on April 1, 2013.

- IFRIC 20 Stripping Costs in the Production Phase of a Surface Mine

In IFRIC 20, the IFRS Interpretations Committee sets out principles for the recognition of production stripping costs in the balance sheet. The interpretation recognizes that some production stripping in surface mining activity will benefit production in future periods and sets out criteria for capitalizing such costs. While the Company is not yet in the production phase, the Company is currently assessing the future impact of this interpretation.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

- IAS 1 Presentation of Financial Statements

IAS 1 was amended to change the grouping of items presented in Other Comprehensive Income ("OCI"). Items that would be reclassified to profit or loss at a future point in time will be presented separately from items that will never be reclassified. The amendments do not change the nature of the items that are currently recognized in OCI, nor do they impact the determination of whether items in OCI are reclassified through profit or loss in future periods. The Company adopted the standard for the annual period beginning on April 1, 2013.

None of the other new standards, interpretations and amendments, which are effective for periods beginning after January 1, 2013 and which have not been adopted early, are expected to have a material effect on the Company's future financial statements.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

There have been no material revisions to the nature of judgments and amount of changes in estimates of amounts reported in the Company's audited Consolidated Financial Statements for the Year Ended March 31, 2013

5. **RECLAMATION BONDS**

Included in Mineral Exploration and Evaluation Costs as at September 30, 2013 is the Company's aggregate reclamation bonds posted with the Mining and Minerals Division of the British Columbia Government in the amount of \$147,400 (March 31, 2013 - \$97,400).

The bonds cover the future site restoration costs with respect to the Seel and Ox Lake Claims, collectively known as the Ootsa Property. All or part of the \$147,400 can be recovered subject to the inspection of the sites and assessment of the restoration costs by the Mining and Minerals Division of the British Columbia Government.

The bonds have not been discounted from their future value because the Company estimates the bonds may be settled within 2 years and the discounting cost being considered immaterial. The Company believes that the amount of the bonds includes sufficient risk premium.

6. MINERAL PROPERTIES

Ootsa Property

The Company owns a 100% interest in the Ootsa property, located in central British Columbia, comprised of 96 mineral claims totalling 67,420 hectares. Of these 96 mineral claims, 14 claims totalling 575 hectares, known as the Ox claims, are subject to a 2% NSR. The purchase agreement with the vendor, Silver Standard Resources Inc., ("Silver") entitles the Company to purchase 50% of the 2% NSR from Silver at any time by the payment to Silver of \$500,000. The Company may purchase the remaining 1% NSR at any time by payment to Silver of an additional \$1,000,000. There are 4 other claims totalling 2,600 hectares, known as the Seel claims, which are subject to a 1% NSR. The Company is entitled at any time to purchase 50% of this 1% NSR for \$1,000,000. There is an associated Area of Interest with these claims, defined as the area lying within a distance of 1 kilometre from the external boundaries of the claims. The remaining 78 mineral claims were acquired by staking.

Auro Property

The Company has a 2% NSR on the Auro Property as part of the March 2012 consideration New Gold Inc. paid the Company for its 100% interest in the 17 claims totaling 21,348 hectares known as the Auro Property located in central British Columbia. New Gold Inc. has committed to spend Cdn. \$1,500,000 ("the Work Commitment Amount") on exploration expenditures on the Auro Property as follows:

- a) A minimum of \$500,000 during the balance of 2012,
- b) A minimum of an additional \$500,000 during calendar year 2013, and
- c) A minimum of an additional \$500,000 during calendar year 2014.

If New Gold Inc. is unable to obtain an exploration permit from the Ministry of Energy and Mines (BC) pursuant to the Mines Act (BC) in 2012 authorizing certain exploration activities on the Properties in a timely manner, then New Gold shall have the right to apply the unspent portion of the \$500,000 required to be spent during the balance of 2012 to the Work Commitment Amount required to be spent during calendar year 2013.

If New Gold Inc. fails to incur the minimum Work Commitment Amount within any of the periods disclosed as above, in lieu of the incurrence of such expenditures, within 30 days of the completion of such period, New Gold Inc. will pay to the Company in cash an amount equal to such deficiency.
